Annex 2 – CDP Solutions Lab Survey questionnaire (French version) 64

PART 1 OVERVIEW

1. INTRODUCTION

With the financial support of the Canada Mortgage & Housing Corporation (CMHC), the Community Data Program (CDP) of the Canadian Community Economic Development Network (CCEDNet) has launched a Solutions Lab project called "Developing easy-to-use community decision-making tools to help achieve National Housing Strategy goals". This project is helping organizations find the best way to measure and respond to local housing and housing-related issues through relevant data, visualization and reporting tools. These organizations include, but are not limited to, municipal governments and local authorities, community-based non-profit organizations, and private sector industry associations.

More information on the CDP Solutions Lab is available from the Housing Solutions Lab Portal on the Community Data Program website: https://communitydata.ca/content/solutions-lab-community-decision-making-tools-housing-issues

2. SURVEY METHODOLOGY

The CDP team has asked individuals working for organizations or departments of organizations with either a direct or indirect role in the housing field and offering their own professional perspective to participate in an online survey, launched in November 2020. The resulting survey data will be of substantial value as the Solutions Lab project progresses and will benefit organizations that are part of a housing system being delivered at a local level.

The Solutions Lab survey was created using an online platform called Google Form. It comprised 14 housing related questions and 4 contact information questions (See Annex 1). The question types include:

- Short answer
- Paragraph (Long-answer text)
- Multiple choices
- Checkboxes
- Drop-down
- Tick box grid
- Multiple-choice grid

Checkboxes and Tick box grid types are applied for Check-All-That-Apply (CATA) questions.

3. WHO RESPONDED TO THE SURVEY?

The survey was open from the end of November 2020 until the end of February 2021. It was shared with six different groups of respondents in English and French languages using separated survey links for better analysis. The groups of audiences are listed below:

1. Canadian Community Economic Development Network (CCEDN) members (English and French versions)
2. Community Data Program members (English and French versions)
3. Expert Community on Housing (ECOH) (English and French versions)
4. Solutions Lab (English and French versions)
5. Canadian Housing Policy Roundtable (CHPR), Canadian Housing Evidence Collaborative and the UBC-led Housing Research Collaborative (English version)
6. Québec members (French version)

In total, 174 responses were received as of March 15, 2021. The Quebec members survey remains open until the end of March 2021.

4. PROCESSING OF SURVEY FINDINGS

The responses were converted to tabular data in CSV format. Tableau Prep was used to combine the data of different groups using Join and Union functions. In addition, the data cleaning steps were completed in Tableau Prep.

In the next step, data visualization, several survey charts were produced using imported data in Tableau Desktop. Survey results are represented in this report as a series of charts.

PART 2 SURVEY FINDINGS

1. HIGHLIGHTS OF FINDINGS

While it will take some time to absorb and reflect in depth on the survey findings -- aided by completion of the Quebec responses and a presentation of results to interested CDP members on April 8 -- a number of highlights are evident:

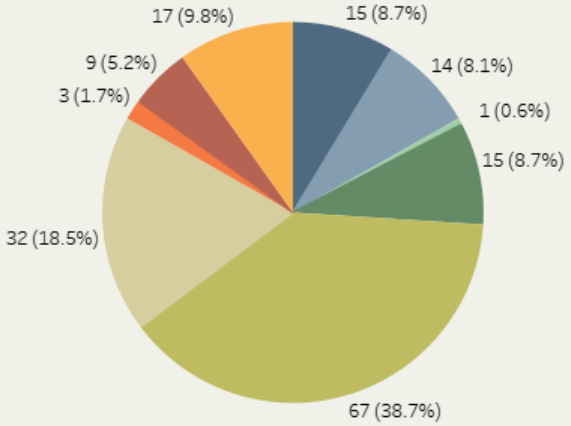
- Just under 90% of all CDP community data consortia (26 out of 29) sent in at least one response, and more than half sent in multiple responses (16).
- The survey clearly achieved its objective of sparking interest in this Solutions Lab project and related processes among the activist core of the CDP.
- Most participation in the survey occurred by municipal governments and municipal agencies (over 48%) and by non-profit organizations (over 42%).
- Private sector companies and associations, Indigenous organizations, and neighbourhood organizations were not polled extensively in the survey and thus did not respond in substantial numbers. The CDP team along with its Solutions Lab consultant are discussing how best to address this opportunity in the future, and at a minimum to supplement the survey findings with additional research and with in-person interviews.
- Neither federal nor provincial departments and agencies took much part in the survey, although an invitation to respond was issued to a network involving substantial numbers of both users and producers of housing data. This again, will be a matter for further strategic reflection by the CDP team and Solutions Lab consultant.
- From a geographic representation perspective, Central Canada and the West had the greatest strength, with both urban and smaller and rural areas reasonably well represented. Atlantic Canada and the North had less extensive representation in responses, with none from Newfoundland and Labrador. This is a matter for specific remedial action recognized by the Solutions Lab management team and their consultant.
- One of the highest response rates to this survey occurred from those organizations that had previously received CMHC Solutions Lab funding. As a result, the CDP team is reaching out to engage these organizations in contributing insights about their data use and gaps they are identifying.
- Three quarters of survey respondents plan to engage more in housing issues but state that they are limited by capacity or resources, or lack of both. Only about 15% are comfortable with their current level of engagement.

- Eighty-eight respondents claimed to produce their own housing data, surveys, and information. The CDP team will be reaching out to these over the coming months to determine the extent to which these organizations are using widely available data to develop their own versions of specific local data products or are indeed are generating unique datasets.
- Almost three quarters of respondents expressed an interest in staying engaged in the Solutions Lab project in the future, which is welcome but not very surprising given the survey sample of those already engaged in the data business in some way. A majority of the remainder left the door open to future contacts. Among these, the CDP team is likely to concentrate its efforts on federal and provincial producers and users of housing data.
- In line with the above patterns of responses, answers to the question of whether the respondents have "the capacity and resources to engage in housing issues", the overwhelming majority said that they had more than enough "passion and commitment" to engage, only a minority said they had enough dedicated staff time, budget, and data. Almost a third identified skills and training as matters to be addressed.
- While Statistics Canada and CMHC ranked first and second as sources of housing data, 61% of respondents said their own surveys and administrative data were major sources of information for housing applications. The CDP has a special interest in seeing what administrative data could be mobilized more fully and effectively in the future and will pursue this topic over the remainder of this project.
- Between 49 and 55% of respondents are engaged in housing policy, housing advocacy, or housing program service delivery. That appears to confirm that the survey is finding out the views on data of decision-making organizations, or at least decision-engaged organizations. More specialized housing-related engagement proportions of respondents, such as housing construction are also significant.
- Looking at which presentation techniques "work best" from the standpoint of respondents, "hard facts" and "critical statements" were currently in use and deemed to work best while "personal stories" and "visuals" were also favoured by a majority of respondents.
- While there was widespread agreement about the level of interest in housing issues among respondents, there was also substantial support for the view that efforts are currently fragmented and hampered by lack of consensus on what is to be done. In brief, the degree of openness to change in housing matters is a matter of debate.
- Finally, the single specific topic drawing the largest amount of interest in having more information is market analysis of supply and demand. Newcomers and homeless people all draw interest in more information from 90+ respondents as well. In the mid-range are those with mental health and addiction issues, seniors, racialized groups, people with disabilities, and Indigenous people. Attracting lower numbers seeking more information are young adults, victims of family violence and veterans.

The survey also invited and received a rich array of substantive comments which will be mined over the coming weeks, with contacts to follow up on particularly interesting opportunities raised to help further innovation in this field.

2. SURVEY CHARTS

CDP Solutions Lab survey responses by scale of geographic region served



- Canada
- Province
- Territory / Territoire
- Health Region or Economic Region / Région sanitaire ou ré..
- Municipality / Municipalité
- Multiple municipalities / Plusieurs municipalités
- Indigenous organization
- Neighbourhood / Quartier
- Other / Autre

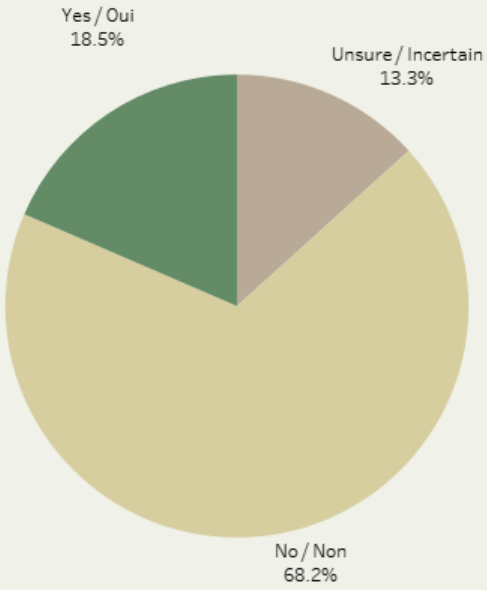
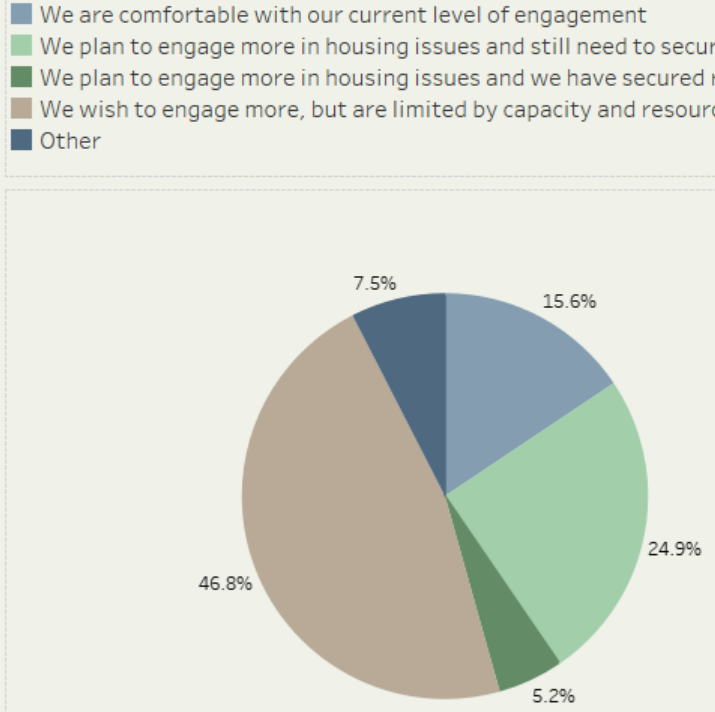
Community Data Program

Enabling communities across Canada to measure and track local well-being

Are you currently involved in a different Canada Mortgage & Housing Corporation (CMHC) National Housing Strategy Solutions Lab?



Would you like to engage more in resolving housing issues in your community?



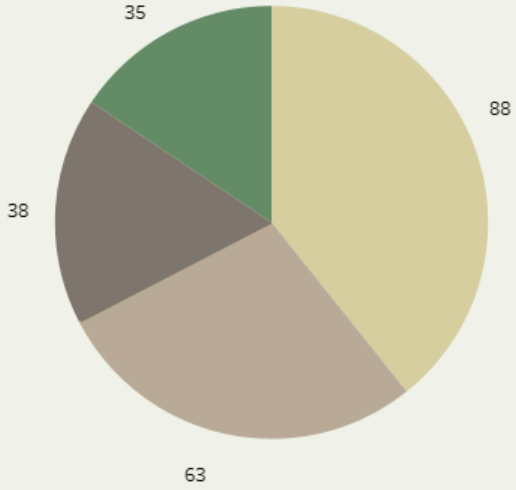
Community Data Program

Enabling communities across Canada to measure and track local well-being

What local sources of data can your organization contribute?*

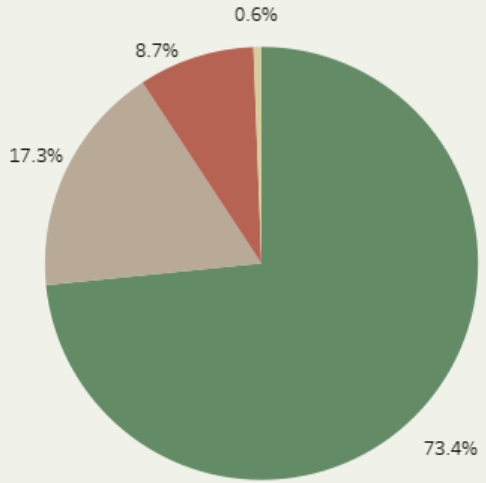
** check-all-that-apply question*

- We create our own housing data, surveys, and information
- We have lists of other local data, surveys and information
- We have not considered contributing to local housing data
- We do not have the capacity to contribute



The CDP team will be working on this project over the next two years. Are you interested in having us follow up with you on issues around local housing data?

- Yes / Oui
- Unsure, based on other work priorities. / Incertain, en raison d'autres priorités..
- Please check back in future. / Veuillez me le redemander plus tard.
- No / Non



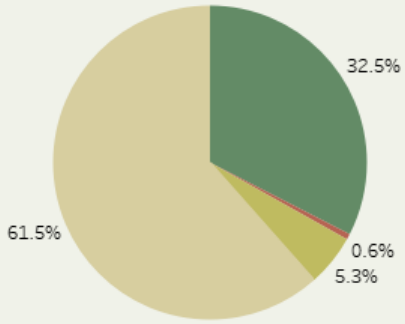
Community Data Program

Enabling communities across Canada to measure and track local well-being

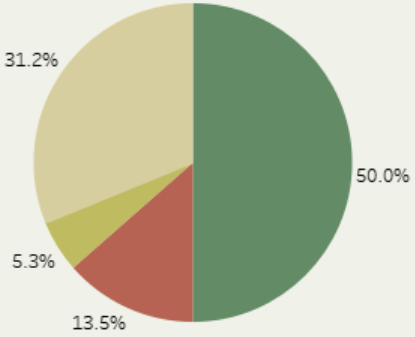
Do you have the capacity and resources to engage in housing issues?

- Enough / Assez
- More than enough / Plus qu'assez
- Not applicable / Non pertinent
- Not enough / Pas assez

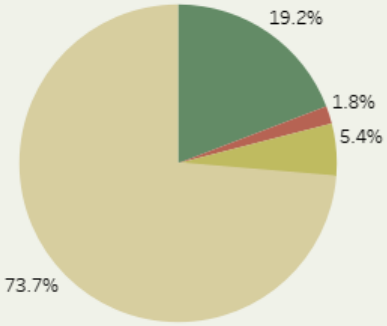
Dedicated staff time



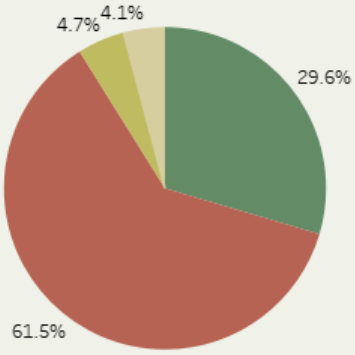
Skills and training



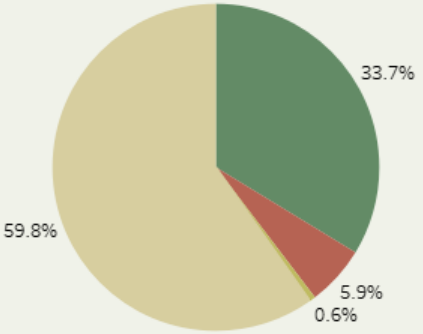
Budget



Passion and commitment



Data and information



What are your sources of data relating to housing issues, if any? *

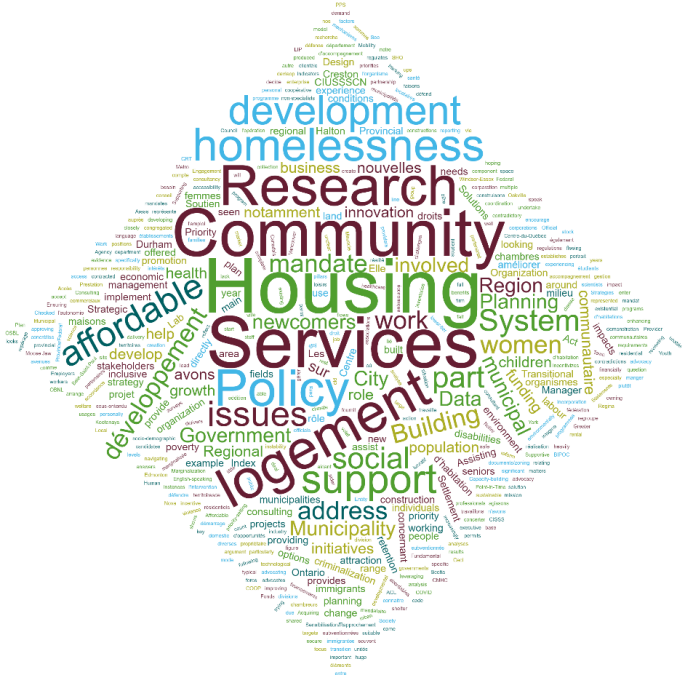
3. COMPILATION OF COMMENTS

The comments of questions 6 to 13 are extracted and displayed in the following tables for more in-depth analysis.

Question 6. How is your organization involved in resolving Housing issues?

Word clouds of question 6 comments are created using https://www.wordclouds.com/. A word cloud is a visual representation of the most common words. The size of words shows the frequency of the words. In this case, Community, Housing, Research, Services, logement, Policy and homelessness respectively are most-used words in the comments.



Organization	Comments (Question 6):
Affordable Housing	
Inclusion Canada	One of Inclusion Canada's strategic priorities is inclusive and affordable Housing for people with developmental disabilities. We have significant Research, demonstration initiatives, policy reform experience, etc. in this area.
Big Hill Haven Women's Emergency Shelter	Supporting women and children fleeing domestic violence to find safe, suitable, and affordable Housing within the community.
City of Vancouver	Affordable Housing Strategies
City of Regina	The City of Regina regulates Housing construction through land use policies, supports affordable Housing development through incentive programs and advocates to the Province/Federal Government on Housing related matters.
City of Toronto	We develop and implement policy to encourage and secure a range of Housing in new development, especially rental and affordable Housing.
City of Coquitlam	Assisting with the creation of affordable Housing is part of our business plan
Fundamental Inc	Fundamental Inc is a social enterprise consultancy providing services around climate change action. We are part of a Solutions Lab that is looking to create a financially and environmentally sustainable business model which provides affordable Housing + social supports and benefits by leveraging the mechanisms of incorporation.
SE Health	LIke many healthcare delivery organizations, we are looking to enter the affordable Housing space, as a new line of work for our 112 year old organization.
Research	
Happy City	Design of Housing, Engagement for inclusive Housing, Housing Research & innovation
Refocus Housing Strategies	Research
McGill University	Research
Wellesley Institute	Research
City of Toronto	Research
PEIANC	Research in, advocating, and hoping others will soon decide Housing needs to be our main priority.
Selkirk College	Research to support Housing initiatives
University of Ottawa	Research (and I am personally involved in advocacy)
Homelessness	

Organization	Comments (Question 6):
City of Red Deer	We act as the Community Based Organization and Community Entity for Provincial and Federal funding through which funding flows through to service providers who support those in our community experiencing homelessness.
Region of Durham	The Region of Durham is the municipal service manger for Housing and homelessness in Durham Region.
City of Windsor	My department is involved in providing data collection and analysis on Housing and homelessness in Windsor-Essex; Data and reporting related to Housing initiatives.
Bridge Street United Church	Point-in-Time homelessness count lead; Systems coordination relating to Housing and homelessness
Fraser Valley Regional District	We undertake homelessness surveys and Social Housing inventories in addition to developing regional growth management strategy policies related to Housing, per the Local Government Act (BC) requirements
Social Planning and Research Council of Hamilton	Housing and homelessness is one of our 4 Priority Areas
Regional Municipality of Waterloo	The Region is Service System Manager for Housing and Homelessness.
WoodGreen Community Housing	We are a full service Housing corporation and homelessness Housing help centre

Question 7. Would you like to engage more in resolving housing issues in your community?

A. We are comfortable with our current level of engagement

Organization	Comments (Question 7):
Priority Decision Data Inc.	We see housing as a vital element of a systems view of urbanization, not just as a topic on its own.
City of Coquitlam	The goal is to see more affordable housing units, not provide ongoing subsidies or services.
District of Nipissing Social Services Administration Board	While we are comfortable in our current level of engagement we still need to secure resources to implement our housing plan and strategies.
Moose Jaw Multicultural Council	Housing is one of our Settlement programs for our clients.
Region of Durham	We are always looking for opportunities to engage with others in resolving housing issues.
City of Red Deer	The City acts as a funder, convener and coordinator as it relates to housing.
Moose Jaw Pride	Housing isn't our primary mandate, but we work with other community orgs to find housing for individuals and families who require it, particularly 2SLGBTQIA+ individuals and families who face increased risk of housing insecurity
CCCQSS	Le principal frein est l'impossibilité de faire mettre le logement social et les droits des locataires à l'agenda en tant que priorité, et ce, auprès de toutes les administrations (municipales, provinciales et fédérale). Notre niveau d'engagement n'y changera pas grand chose.

B. We wish to engage more, but are limited by capacity and resources

Organization	Comments (Question 7):
United Way Greater Toronto	As a non-profit, our engagement is in part dictated by fundraising and donations.
Halifax Regional Municipality	HRM Council voted to ask for housing back. Short of that, there are many ways the municipality could be more involved in delivering services.
Workforce Planning and Development Board (EMO)	Housing is an ongoing issue impacting workforce across our region.
Parkdale Neighbourhood Land Trust	Housing is the near exclusive focus of the organization, for now at least.
Canadian Mental Health Association, Elgin-Middlesex	We would like to expand our housing programs for youth to include a Shared Living long-term home and more opportunities for community living.

Organization	Comments (Question 7):
City of Toronto	We are limited by provincial regulation and the municipal budget
Social Planning and Research Council of Hamilton	Very interested in this Solutions Lab - glad to see that you are starting this.
City of Burlington	As a City we are initiating a housing strategy. However, we plan to engage more and will identify at that time the resources to do so.
Township of Langley	There are political challenges regarding the role of a municipality in facilitating creation of non-market housing.
Fraser Valley Regional District	we provide data to support efforts of our member municipalities - we do not have a stand-alone housing function.
Elizabeth Fry Society	There is not recognition within the structure of CMHC programs regarding the difference in mandate between organizations registered with a mandate of being poverty alleviating versus other charitable purposes - mixed market housing doesn't work for us because serving individuals over the poverty line can risk our charitable status. Secondly there is not recognition of the additional financial burden created by us having to provide 100% very low rents - 30% below the MMB. Nor is there recognition of the limited market that women only organizations operate in and our limited ability to raise funds, earn equity or take on large projects due to the size of our organizations
OMHQ	sommes aussi limités par notre mandat d'organisme para-municipal.
Comité Maison de chambres de Québec	Nous travaillons présentement à pérenniser notre financement.

C. We plan to engage more in housing issues and still need to secure resources

Organization	Comments (Question 7):
Region of Peel	Above is speaking only as an employee within RPGM - other areas of the org may answer differently
City of Calgary	We are interested in engaging more in housing issues, but lack funding.
Prairie Skies Integration Network	Several agencies/ organizations in our community are interested in engaging further in regards to housing, but we are severly limited by lack of capacity & resources
CIty of Delta	We are undertaking a Housing Action Plan at this time, but the implementation of that plan may require additional resources, as would becoming further involved in housing advocacy or provision.

Organization	Comments (Question 7):
Home Suite Hope	we have some money now but not the kind that a build needs
Comtés unis Prescott-Russell	Je vais envoyer le sondage à un de mes collègue de travail afin d'avoir une autre vision sur les réponses de cette question.
Desjardins	intérêt très marqué à agir comme partenaire des mesures comprises dans la Stratégie nationale sur le logement
Ruche Vanier	Nous sommes en train d'identifier les enjeux prioritaires sur lesquels mobiliser les bonnes ressources.

D. We plan to engage more in housing issues and we have secured resources

Organization	Comments (Question 7):
Organisme communautaire (Clés en main) PECH fiduciaire	Nous sommes en constant développement avec l'ensemble des acteurs concernée par notre mission. Notre Programme fait l'object d'un étude de transfert des connaissance

E. Other

Organization	Comments (Question 7):
Inclusion Canada	We plan to engage more in housing issues, and have secured some resources but are actively seeking more.
Regional Municipality of Waterloo	I'm not sure how to answer this question.
RDH Building Science Inc	Personally, I'm interested in being involved at my community level. I have a strong sense that the company would support the right type of work/project (would need to align with our skillset/area of expertise).
Eastern Ontario Leadership Council	Private housing and affordable housing are significant issues across our region and relate directly to the economic and labour market components of our mandate.
Canadian Mental Health Association, Elgin-Middlesex	me personally or my agency ?, I cannot speak for them
County of Simcoe	Yes, through providing actionable data
Wellesley Institute	Unsure - In my position, I am working on a housing-related research project. I cannot speak to the broader mandate/vision of the organization.

Organization	Comments (Question 7):
Metro Vancouver	All of the above - we would love to do even more with more resources
County of Simcoe	We plan on working in partnership with our housing and planning departments to address housing issues as they relate to talent attraction and retention and economic development in general.
City of Windsor	We plan to engage more in providing statistics on housing and homelessness indicators to share across departments.
Association des groupes de ressources techniques du Québec	Il s'agit de notre mission
Vivre en Ville	Nous sommes déjà engagés dans les enjeux liés au logement et nous prévoyons de nous engager davantage encore. Nous mobilisons actuellement des ressources et nous prévoyons en mobilier davantage encore.

Question 8. Do you have the following capacity and resources to address housing issues?

Organization	Passion & commitment	Budget	Data & information	Skills & training	Dedicated staff	Comments (Question 8):
District of Nipissing Social Services Administration Board	More than enough	Not enough	Enough	Enough	Enough	While we generally have enough administrative and public (open) data we are short client/ customer survey data (tenant satisfaction, needs, etc.).
City of Red Deer	More than enough	Enough	Not enough	More than enough	Enough	We have enough staff and resources to maintain our current level of service. We would be more to get more regular and timely data reporting, and eventually to get to predictive analytics.
City of Red Deer	Enough	Not enough	Not enough	More than enough	Enough	We have an adequate amount of data that we gather locally, however not enough staff dedicated to analyze on a more frequent basis
Priority Decision Data Inc.	More than enough	Not enough	Not enough	Enough	Enough	We have a continuous challenge in setting priorities among interesting and paid assignments in fields to which we feel we can contribute. At times, topics we believe to be most urgent to address are simply not funded for consulting work, so we undertake them on a voluntary basis and/or include them as sidelights in other projects.

Organization	Passion & commitment	Budget	Data & information	Skills & training	Dedicated staff	Comments (Question 8):
Social Planning and Research Council of Hamilton	Enough	Not enough	Enough	Enough	Not enough	We could always use more data! But we definitely don't use as much data as we have access to, so I guess we have enough data for now.
City of Vancouver	Enough	Not enough	Not enough	Not enough	Not enough	There is often not enough time to dedicate to ongoing training and education
University of Ottawa	Enough	Not enough	Not enough	Not enough	Not enough	There are very few 'urban' and housing scholars. I am an adjunct.
Quinte Immigration Services	Enough	Not enough	Not enough	Enough	Enough	The QLIP is more of a collaborative initiative to support newcomer developments in the community. There area a lot of issues to be focusing on and housing is definitely one, but some other issues have taken precedence
Eastern Ontario Leadership Council	Enough	Not enough	Not enough	Not applicable	Not enough	The currency, granularity and comprehensiveness of housing data is a real challenge. Actual recent selling prices of housing as well as rentals is sadly lacking. This information is vital to understanding affordability of housing for disadvantaged members of our communities as well as average citizens.

Organization	Passion & commitment	Budget	Data & information	Skills & training	Dedicated staff	Comments (Question 8):
Fraser Valley Regional District	Enough	Not enough	Enough	Not enough	Not enough	Rural and smaller community housing information is an issue - some areas not included in CMHC surveys - eg District of Hope, pop 6,000+
Desjardins	More than enough	Enough	Enough	Enough	Enough	plusieurs changements de personnels obligent une augmentation de la formation
Moose Jaw Pride	Not applicable	Not applicable	Not applicable	Not applicable	Not applicable	Not central to our mandate
City of Windsor	Not applicable	Not applicable	Not enough	Not applicable	Not applicable	My department is not directly involved in addressing housing issues, but provides support with data collection, analysis and reporting for the housing department. Access to additional data, measurement, and reporting tools would be helpful in these efforts.
City of Calgary	Enough	Not enough	Not enough	Enough	Enough	My best guess at our organization's situation.
Metro Vancouver	More than enough	Not enough	Not enough	Enough	Enough	More funding and more data would be very helpful. Would love to see disaggregated data to better understand specific housing needs and priorities.

Organization	Passion & commitment	Budget	Data & information	Skills & training	Dedicated staff	Comments (Question 8):
Organisme communautaire (Clés en main) PECH fiduciaire	Enough	Not enough	Not enough	Not enough	Not enough	Le pérennisation du financement est un enjeu important
CIUSSS de la Capitale-Nationale	Enough	Not enough	Enough	Not enough	Not enough	Le dossier logement nécessite beaucoup de formation dans notre établissement car il ne fait pas partie de l'expertise de la plupart des intervenant.es en santé et services sociaux. De même il y a très peu de financement pour supporter les interventions du
Ruche Vanier	More than enough	Enough	Enough	Not enough	Enough	La passion et l'engagement sur les enjeux de logement sont partagés par les travailleurs.euses de l'organisme. Lorsqu'on parle avec les citoyen.nes de la communauté on constate que les problèmes sont nombreux et d'ordre différents (gentrification, incapacité financière, problèmes d'insalubrité, problèmes avec les propriétaires, mauvaises connaissances des droits, etc.): il nous faut maintenant travailler à collectiviser les enjeux avec les citoyen.nes.
Township of Langley	More than enough	Not enough	Enough	Enough	Not enough	In my opinion, the organization would greatly benefit from at least 1 housing planner. Housing work is currently shared between multiple planners

Organization	Passion & commitment	Budget	Data & information	Skills & training	Dedicated staff	Comments (Question 8):
Prairie Skies Integration Network	More than enough	Not enough	Not enough	Enough	Not enough	I'm speaking on my behalf and on behalf of several of my partners with whom I observe the same circumstances
Metro Vancouver						I don't think I'm in the best position to make a judgement on how much capacity and resources we have, as the organization is quite large, but I have sent this survey to others in my organization as well.
City of Coquitlam	More than enough	Not enough	Not enough	Enough	Not enough	I answer this as a sole, full time Housing(Social) Planner in a City with a population over 130,000. What is an appropriate level of resources for a City?
Goatcher Consulting	Enough	Not enough	Enough	Enough	Enough	I am a one-person company so my resources are limited.
County of Simcoe	Enough	Enough	Not enough	Not enough	Enough	Housing falls under part of our strategic plan, but we have to work in partnership with other departments in order to effectively make changes
Inclusion Canada	More than enough	Not enough	Not enough	More than enough	Not enough	Given there is always more to do, we can always use more resources. We have good access to data and information but there is always new and more information to capture.

Organization	Passion & commitment	Budget	Data & information	Skills & training	Dedicated staff	Comments (Question 8):
County of Simcoe	More than enough	Not enough	Not enough	Not enough	Not enough	Could always benefit from more staff time, skills and training, data and information and budget.
Canadian Mental Health Association, Elgin-Middlesex	More than enough	Not enough	Enough	Enough	More than enough	Budget is our biggest issue by far.
City of Burlington	Enough	Not applicable	Not enough	Not enough	Not enough	As a lower tier municipality, Halton Region is our housing services provider.
Wellesley Institute						Again, I can't speak to this from the organizational perspective, but my impression is that there is always a need for greater capacity and resources to address systemic and structural issues related to housing.
City of Kingston	More than enough		Enough	Not enough	Not enough	A lot of great data and information but need more people and money to help pull it together to start to look at impact and outcomes

Question 9. What are your sources of data relating to housing issues, if any?

Organization	9. What are your sources of data relating to housing issues, if any?	Comments (Question 9):
Regional data source		
City of Markham	Community Data Program;Statistics Canada (apart from CDP);Canada Mortgage and Housing Corporation (apart from CDP);Other data and information (please comment below)	York Region publish an annual report on housing affordability data at the regional and local level.
Town of Newmarket	Community Data Program;Statistics Canada (apart from CDP);Provincial Government statistical sources of data and information;Private sector housing data such as Environics Analytics or Altus Group Data Solutions	Regional Municipality of York information
Township of Langley	Community Data Program;Statistics Canada (apart from CDP);Canada Mortgage and Housing Corporation (apart from CDP);Provincial Government statistical sources of data and information;Our own housing-related surveys and administrative data;Other data and information (please comment below)	The Regional District of Metro Vancouver provides considerable amounts of data and statistics to member municipalities. We hired a consultant for our 5-year Housing Needs Report, accepted by Council fall 2020.
Wellesley Institute	Our own housing-related surveys and administrative data; Other local organizations; Other data and information (please comment below)	Provincial housing waitlists
Halton Region	Community Data Program;Statistics Canada (apart from CDP);Canada Mortgage and Housing Corporation (apart from CDP);Provincial Government statistical sources of data and information;Other local organizations;Other data and information (please comment below)	Province of Ontario
Social Planning and Research Council of Hamilton	Community Data Program;Statistics Canada (apart from CDP);Canada Mortgage and Housing Corporation (apart from CDP);Provincial Government statistical sources of data and information;Other local organizations	Ontario goverment Landlord Tenant Board individual case data has been a new source of useful data for us
Issues regarding data collection		
Catholic Health Alliance of Canada	Canada Mortgage and Housing Corporation (apart from CDP)	We greatly need more knowledge about what data sources are even available to us.
Prairie Skies Integration Network	Other data and information (please comment below)	Some of the above may be available to us, but we struggle with the resources to be able to access and analyze it.

Organization	9. What are your sources of data relating to housing issues, if any?	Comments (Question 9):
City of Burlington	Statistics Canada (apart from CDP);Canada Mortgage and Housing Corporation (apart from CDP);Other data and information (please comment below)	Other data relied upon is Halton Region's annual State of Housing report. While we are a member of the Community Data Program, there isn't staff within Community Planning comfortable with using the statistical software.
City of Red Deer	Statistics Canada (apart from CDP);Canada Mortgage and Housing Corporation (apart from CDP);Provincial Government statistical sources of data and information;Our own housing-related surveys and administrative data;Other local organizations	We don't receive private sector data unless it's rolled
Elizabeth Fry Society	Community Data Program;Statistics Canada (apart from CDP);Canada Mortgage and Housing Corporation (apart from CDP);Provincial Government statistical sources of data and information;Private sector housing data such as Environics Analytics or Altus Group Data Solutions;Our own housing-related surveys and administrative data;Other data and information (please comment below)	data related to institutionalization is needed - most is American. Disaggregated data is an issue for every data source other than our own.
Data Source = Universities		
City of Calgary	Community Data Program;Statistics Canada (apart from CDP);Canada Mortgage and Housing Corporation (apart from CDP);Provincial Government statistical sources of data and information;Private sector housing data such as Environics Analytics or Altus Group Data Solutions;Our own housing-related surveys and administrative data;Other data and information (please comment below)	Universities
Generation Squeeze	Statistics Canada (apart from CDP);Canada Mortgage and Housing Corporation (apart from CDP);Provincial Government statistical sources of data and information;Our own housing-related surveys and administrative data;Other local organizations;Other data and information (please comment below)	Also: Academic sources
Local data source		
Workforce Planning and Development Board (EMO)	Community Data Program;Statistics Canada (apart from CDP);Private sector housing data such as Environics Analytics or Altus Group Data Solutions;Other local organizations	Local real estate board information

Organization	9. What are your sources of data relating to housing issues, if any?	Comments (Question 9):
University of Ottawa	Statistics Canada (apart from CDP);Canada Mortgage and Housing Corporation (apart from CDP);Provincial Government statistical sources of data and information;Other data and information (please comment below)	Local government is a good source of information and ideas. We also rely on CCPA , Maytree, CERA, etc.
Homelessness counts		
Regional Municipality of Waterloo	Canada Mortgage and Housing Corporation (apart from CDP);Provincial Government statistical sources of data and information;Our own housing-related surveys and administrative data;Other data and information (please comment below)	Homeless Individuals and Families Information System (HIFIS)
Fraser Valley Regional District	Community Data Program;Statistics Canada (apart from CDP);Canada Mortgage and Housing Corporation (apart from CDP);Provincial Government statistical sources of data and information;Private sector housing data such as Environics Analytics or Altus Group Data Solutions;Our own housing-related surveys and administrative data	undertake homeless count every three years
Bridge Street United Church	Community Data Program;Canada Mortgage and Housing Corporation (apart from CDP);Other data and information (please comment below)	Point in Time Homelessness Count
United Way Greater Toronto	Statistics Canada (apart from CDP);Canada Mortgage and Housing Corporation (apart from CDP);Other local organizations	Municipal point-in-time homelessness counts, consultant reports on local housing market issues
Municipal data source		
Union: Sustainable Development Co-operative	Statistics Canada (apart from CDP);Canada Mortgage and Housing Corporation (apart from CDP);Private sector housing data such as Environics Analytics or Altus Group Data Solutions;Other data and information (please comment below)	Municipal housing reports
City of St. Albert	Community Data Program;Statistics Canada (apart from CDP);Canada Mortgage and Housing Corporation (apart from CDP);Provincial Government statistical sources of data and information;Our own housing-related surveys and administrative data;Other local organizations;Other data and information (please comment below)	Municipal census, Rental Housing Index
Social Planning Toronto	Community Data Program;Statistics Canada (apart from CDP);Canada Mortgage and Housing Corporation (apart from CDP);Other data and information (please comment below)	City of Toronto administrative data

Organization	9. What are your sources of data relating to housing issues, if any?	Comments (Question 9):
Social Planning Toronto	Community Data Program;Statistics Canada (apart from CDP);Canada Mortgage and Housing Corporation (apart from CDP);Other data and information (please comment below)	City of Toronto administrative data
Other		
Canadian Mental Health Association, Elgin-Middlesex	Our own housing-related surveys and administrative data;Other local organizations;Other data and information (please comment below)	Unsure where the rest of our data and information comes from.
Unité de travail pour l'implantation de logement étudiant (UTILE)	La Société canadienne d'hypothèques et de logement (autre que le PDC);Sources de données et d'informations statistiques d'un gouvernement provincial;Données sur le logement provenant du secteur privé, telles que celles d'Environics Analytics ou du Groupe Altus;Nos propres sondages et données administratives sur le logement	Nous effectuons notre propre sondage sur les conditions de logement étudiantes : Nous avons trois bases de données (2014, 2017, 2019) de plus de 10 000 répondants et sondons présentement plus de 500 000 étudiants à la grandeur du Canada.
SE Health	Statistics Canada (apart from CDP);Canada Mortgage and Housing Corporation (apart from CDP);Provincial Government statistical sources of data and information;Our own housing-related surveys and administrative data;Other local organizations;Other data and information (please comment below)	many reports that are secondary sources of data - ie they crunch primary sources and we use the synthesized/analyzed data
OMHQ	Statistique Canada (autre que le PDC);La Société canadienne d'hypothèques et de logement (autre que le PDC);Sources de données et d'informations statistiques d'un gouvernement provincial; Données sur le logement provenant du secteur privé, telles que celles d'Environics Analytics ou du Groupe Altus; Nos propres sondages et données administratives sur le logement; Autres organismes locaux	Les données du Registre partagé pour le logement subventionné à Québec guide beaucoup de nos actions en logement à Québec. Les données du bilan de santé de nos immeubles également.
Parkdale Neighbourhood Land Trust	Our own housing-related surveys and administrative data; Other local organizations	Just want to be clear that I can only answer for the project I work on... The broader organization would likely have different answers.
Priority Decision Data Inc.	Statistics Canada (apart from CDP); Canada Mortgage and Housing Corporation (apart from CDP); Provincial Government statistical sources of data and information; Private sector housing data such as Environics Analytics or Altus Group Data Solutions; Other data and information (please comment below)	International reports with data, information and relevant evidence; academic journal articles

Organization	9. What are your sources of data relating to housing issues, if any?	Comments (Question 9):
Organisme communautaire (Clés en main) PECH fiduciaire	Programme de données communautaires (PDC); Statistique Canada (autre que le PDC); La Société canadienne d'hypothèques et de logement (autre que le PDC); Sources de données et d'informations statistiques d'un gouvernement provincial; Nos propres sondages et données administratives sur le logement	Étude de transfert des connaissances et sondage interne auprès de nos locataires
Regroupement des groupes de femmes de la région de la Capitale-Nationale	Statistique Canada (autre que le PDC); La Société canadienne d'hypothèques et de logement (autre que le PDC); Sources de données et d'informations statistiques d'un gouvernement provincial; Autres organismes locaux; Autres données et informations (veuillez commenter ci-dessous)	Données des OMH sur les listes d'attentes, etc. Il nous manque des donneés différenciées (selon le genre, l'âge, la situation familiale. etc.)
PEIANC	Canada Mortgage and Housing Corporation (apart from CDP); Provincial Government statistical sources of data and information; Our own housing-related surveys and administrative data; Other data and information (please comment below)	CREA

Red Cedar Cafe	Other data and information (please comment below)	We deliver meals to the unhoused in encampments at 8 locations in Greater Victoria daily as part of our outreach effort and are able to provide data on numbers of unhoused and fluctuations in those numbers.
FROHMCQ - Fédération régionale des OSBL d'habitation Mauricie-Centre-du-Québec	Statistique Canada (autre que le PDC);Sources de données et d'informations statistiques d'un gouvernement provincial;Nos propres sondages et données administratives sur le logement;Autres organismes locaux;Autres données et informations (veuillez commenter ci-dessous)	RQOH Réseau québécois des OSBL d'habitation

Question 10. What are the housing topics about which you wish you had more data, especially at the neighbourhood level?

Organization	10. What are the housing topics about which you wish you had more data and information, especially at the neighbourhood level?	Comments (Question 10):
Priority Decision Data Inc.	Seniors;Newcomers	In general, we tend to stop at the CMA and CA level and not delve into neighbourhood-scale dynamics, though we recognize the value of the latter to illuminate local dynamics. Our primary aim is to look at comparative patterns across and array of urban centres and regions.
Ecobatiment	Anything related to housing;Housing market trends in demand and supply	We are desperate for information related to the composition and state of the existing building stock
Inclusion Canada	People with disabilities	Also: dispersion rates; how federal NHS dollars are being spent locally and how these decisions are being made; # people moving from congregate living to inclusive housing and vice versa; etc.
Ecobatiment	Anything related to housing;Housing market trends in demand and supply	We are desperate for information related to the composition and state of the existing building stock
Reena	People with disabilities;Mental health/addiction	New resources
Happy City	Fleeing Domestic Violence;Indigenous peoples;Homeless people;People with disabilities;Mental health/addiction;Young adults	Desegregated data in general, longitudinal data
SHS Consulting	Seniors;Indigenous peoples;Homeless people;People with disabilities;Mental health/addiction;Young adults;Racialized groups;Newcomers	We are working on projects specific to all of these groups and often find it difficult to find data on experiences, challenges, as well as quantitative data on these populations.
Factor 5 Group	Anything related to housing;Fleeing Domestic Violence;Seniors;Indigenous peoples;Homeless people;People with disabilities;Mental health/addiction;Veterans;Young adults;Racialized groups;Newcomers;Housing market trends in demand and supply	We would like to receive all the information regarding housing.
City of St. Albert	Anything related to housing	Family structure & no of persons in hh in relation to housing costs for the above groups.

Organization	10. What are the housing topics about which you wish you had more data and information, especially at the neighbourhood level?	Comments (Question 10):
SHS Consulting	Anything related to housing;Fleeing Domestic Violence;Seniors;Indigenous peoples;Homeless people;People with disabilities;Mental health/addiction;Veterans;Young adults;Racialized groups;Newcomers;Housing market trends in demand and supply	more and more accurate data --> better outcomes
Goatcher Consulting	Housing market trends in demand and supply	CMHC data on absorbed condo row & apartment unit prices by CMA
Red Cedar Cafe	Anything related to housing	It would be helpful if our community was able to provide info to frontline outreach to ensure we are aware of all the pathways to housing and the process to accessing these and could share.
Durham Family Resources and Support	People with disabilities;Housing market trends in demand and supply	availability, effective models, non-congregated models, separation of housing and support
City of Calgary	Anything related to housing;Seniors;Indigenous peoples;Homeless people;People with disabilities;Mental health/addiction;Racialized groups;Newcomers;Housing market trends in demand and supply	Any and all of this information would be useful at the neighbourhood level.
Social Planning Toronto	Fleeing Domestic Violence;Seniors;Indigenous peoples;Homeless people;People with disabilities;Mental health/addiction;Veterans;Young adults;Racialized groups;Newcomers;Housing market trends in demand and supply	Disaggregated race based and other social data, eviction data, rents registry to see if landlords are breaking law on increase guidelines, better quality Indigenous data
County of Simcoe	Homeless people;Housing market trends in demand and supply	CMHC data for our CSD's with populations as low as 8,000 people. 17/18 municipalities have a population under 40,000.
City of Kingston	Seniors;Indigenous peoples;Homeless people;People with disabilities;Mental health/addiction;Veterans;Young adults;Racialized groups;Newcomers	We have the infrastructure side of things but need to understand the human side of the story more
Halton Region	Anything related to housing;Fleeing Domestic Violence;Seniors;Indigenous peoples;Homeless people;People with disabilities;Mental health/addiction;Veterans;Young adults;Racialized groups;Newcomers;Housing market trends in demand and supply	- Future demand projects/modelling for what type of housing and for whom should we be building. - How to make connections to other ministries to work together (Veterans).

Organization	10. What are the housing topics about which you wish you had more data and information, especially at the neighbourhood level?	Comments (Question 10):
		- All of this data at a more granular level then what is available now.
City of Red Deer	Anything related to housing;Fleeing Domestic Violence;Seniors;Indigenous peoples;People with disabilities;Mental health/addiction;Veterans;Young adults;Racialized groups;Newcomers;Housing market trends in demand and supply	We have robust data with regards to those experiencing homelessness in our community. Therefore, I would like to see more data on other subpopulations to create a richer understanding of our community.
City of Red Deer	Anything related to housing;Fleeing Domestic Violence;Seniors;Indigenous peoples;Homeless people;People with disabilities;Mental health/addiction;Young adults;Racialized groups;Newcomers;Housing market trends in demand and supply	Housing and community related data is always appreciated.
Centre de géographie populaire	Les peuples autochtones;Les personnes handicapées;La santé mentale/la dépendance;Les nouveaux arrivants	Les flux migratoires inter-régionaux
Comité Maison de chambres de Québec	Tout ce qui concerne le logement;La fuite de la violence familiale;Les aînés;Les peuples autochtones;Les sans-abri;Les personnes handicapées;La santé mentale/la dépendance;Les anciens combattants;Les jeunes adultes;Les groupes racialisés;Les nouveaux arrivants;Les tendances de l'offre et de la demande sur le marché du logement	Nous cherchons toujours des données concernant les maisons de chambres et le profil des gens y habitant est très varié.
CCCQSS	Tout ce qui concerne le logement	Nous n'avons pas vraiment d'enjeux important en ce qui concerne les données sur la situation du logement dans SAint-Sauveur.
CIUSSS de la Capitale-Nationale	Tout ce qui concerne le logement;La fuite de la violence familiale;Les aînés;Les peuples autochtones;Les sans-abri;Les personnes handicapées;La santé mentale/la dépendance;Les anciens combattants;Les jeunes adultes;Les groupes racialisés;Les nouveaux arrivants;Les tendances de l'offre et de la demande sur le marché du logement	Le nombre de logements sociaux, toutes tenures et programmes confondus par quartier, municipalité et MRC. Les taux d'effort au loyer pour les mêmes territoires.Cartographie des données. Production d'un indice logement regroupant plusiuers indicateurs.
Ruche Vanier	Tout ce qui concerne le logement	+ Trajectoire résidentielle (Pourquoi on quitte un quartier pour s'installer ailleurs? Qu'est-ce qui fait qu'on choisi un quartier?) + Rapports avec le.la propriétaire (Moyens communication; obligations

Organization	10. What are the housing topics about which you wish you had more data and information, especially at the neighbourhood level?	Comments (Question 10):
		accomplies par le propriétaire; évictions frauduleuses) + Connaissances des droits des locataires et des propriétaires + Connaitre les besoins des propriétaires de logements locatifs
Unité de travail pour l'implantation de logement étudiant (UTILE)	Les jeunes adultes;Les groupes racialisés;Les nouveaux arrivants;Les tendances de l'offre et de la demande sur le marché du logement	Le logement étudiant aussi
Regroupement des groupes de femmes de la région de la Capitale-Nationale	Tout ce qui concerne le logement;La fuite de la violence familiale;Les aînés;Les peuples autochtones;Les sans-abri;Les personnes handicapées;La santé mentale/la dépendance;Les jeunes adultes;Les groupes racialisés;Les nouveaux arrivants	Il manque souvent des données différenciées
Secondary market / Rental data		
Generation Squeeze	Young adults;Racialized groups;Housing market trends in demand and supply	It would be great if there was more data/Visualizations that differentiated between investment properties/secondary residences of all types and primary residences/homes. With further differentiation between different kinds of investment ownership e.g. long-term rental, short-term rental, empty unit. It would be also be great, though difficult, to have thorough data on the location and form of all secondary market rental (including un-permitted suites). It would also be great to have data/visualizations of property value changes over time at the neighbourhood level.
Region of Peel	Anything related to housing;Fleeing Domestic Violence;Seniors;Indigenous peoples;Homeless people;People with disabilities;Mental health/addiction;Veterans;Young	Second units/secondary market at the local municipal and sub-municipal levels

Organization	10. What are the housing topics about which you wish you had more data and information, especially at the neighbourhood level?	Comments (Question 10):
	adults;Racialized groups;Newcomers;Housing market trends in demand and supply	
City of Coquitlam	Anything related to housing	Renters in general are difficult to reach, especially during COVID.
City of Toronto	Anything related to housing;Newcomers;Housing market trends in demand and supply	We need data on asking rents for the secondary rental market, especially non-condo secondary rental market (i.e. not just CMHC and Urbanation data)
Region of Durham	Anything related to housing;Indigenous peoples;Homeless people;Mental health/addiction;Young adults;Housing market trends in demand and supply	Homelessness - particularly related to provisional accommodation; housing market data related to secondary market
Social Planning and Research Council of Hamilton	Anything related to housing	One easy thing CMHC could do would be slice their rental data (like Target group profiles) in more of their tables by rent amounts so that we can see the different rental housing trends at the low and high ends of the private market.
Township of Langley	Fleeing Domestic Violence;Seniors;Indigenous peoples;Homeless people;People with disabilities;Mental health/addiction;Veterans;Young adults;Racialized groups;Newcomers;Housing market trends in demand and supply	We would really like to know more about the secondary rental market. In particular, to determine the stock, units sizes, average rent, vacancy rate.
Metro Vancouver	Indigenous peoples;Racialized groups;Newcomers;Housing market trends in demand and supply	We wish we had a way to determine how people are moving across the region as result of housing pressures, without waiting for the census data every 5 years. For example, are people moving to more rural areas as result of housing unaffordability? How has Covid affected people and their housing choices? Especially renters?
Affordable housing		
City of Calgary	Indigenous peoples;Racialized groups;Housing market trends in demand and supply	Need for affordable housing and affordable housing stock
Quinte Immigration Services	Fleeing Domestic Violence;Homeless people;Racialized groups;Newcomers	Affordable housing options - how to promote affordable housing in the community

Organization	10. What are the housing topics about which you wish you had more data and information, especially at the neighbourhood level?	Comments (Question 10):
Immigrants/ New commers		Immigrants/ New commers
City of Vancouver	Seniors;Indigenous peoples;People with disabilities;Mental health/addiction;Young adults;Racialized groups;Newcomers;Housing market trends in demand and supply	Relevant data on immigration and housing tenure
Moose Jaw Multicultural Council	Anything related to housing;Indigenous peoples;Homeless people;Veterans;Newcomers	As a regional gateway our focus is finding sustainable and affordable housing for newcomers to Moose Jaw. However having data on other groups in Moose Jaw ensures that we are aware of everyone's needs and availability to that we can help each other.
Women, Children, LGBTQ, Disabilities, Race		
United Way Greater Toronto	Fleeing Domestic Violence;Indigenous peoples;Homeless people;Mental health/addiction;Racialized groups;Newcomers	LGBTQ2S+
University of Ottawa	Anything related to housing;People with disabilities;Mental health/addiction;Racialized groups	There is particularly poor census data on disabilities, LGBTQI2S, race
Moose Jaw Pride	Indigenous peoples;Homeless people;Racialized groups;Newcomers	2SLGBTQIA+ people
Family Service Toronto	Anything related to housing;Fleeing Domestic Violence;Seniors;Indigenous peoples;Homeless people;People with disabilities;Mental health/addiction;Veterans;Young adults;Racialized groups;Newcomers;Housing market trends in demand and supply	women and gender non-conforming people, with or with out dependents, fleeing violence but also not fleeing violence and homeless, precariously housed for other reasons
Centretown Community Health Centre	Indigenous peoples;Homeless people;Mental health/addiction;Newcomers	Invisibility of highly vulnerable people (i.e. who reside in women's shelters, homeless shelters, temporary housing) in our Census data is highly problematic
Elizabeth Fry Society	Seniors	WOMEN AND CHILDREN DONT EVEN MAKE THE LIST YET - 8% OF CANADIAN CHILDREN ARE POOR; OVER HALF LIVE IN SINGLE CARE GIVER HOMES; OVER 80% OF THOSE ARE WOMEN AND THE MAJORITY INDIGNEOUS, BLACK OR OTHERWISE RACIALIZED. GENDER IS ALWAYS A SIGNIFICANT CONFOUNDING FACTOR AND IT IS NOT EVEN NOTED!! THERE ARE SIGNIFICANT FACTORS RELATED TO THE

Organization	10. What are the housing topics about which you wish you had more data and information, especially at the neighbourhood level?	Comments (Question 10):
		DEVELOPMENT OF HOUSING THAT IS FOR WOMEN, EITHER IN MIXED OR WOMEN ONLY SETTINGS.
Metro Vancouver	Anything related to housing;Seniors;Homeless people;People with disabilities;Mental health/addiction;Racialized groups;Newcomers;Housing market trends in demand and supply	Interested in more data on all these topics but those selected are most applicable to our work. Particularly interested in more data on people with disabilities in terms of housing need.
Eviction		
United Way Greater Toronto	Anything related to housing;Indigenous peoples;Homeless people;Mental health/addiction;Racialized groups	Eviction data, data on naturally occurring affordable housing, data on at-risk buildings for upcycling
Social Planning Toronto	Fleeing Domestic Violence;Seniors;Indigenous peoples;Homeless people;People with disabilities;Mental health/addiction;Veterans;Young adults;Racialized groups;Newcomers;Housing market trends in demand and supply	Disaggregated race based and other social data, eviction data, rents registry to see if landlords are breaking law on increase guidelines, better quality Indigenous data
Wellesley Institute	Anything related to housing;Homeless people;People with disabilities;Mental health/addiction;Young adults;Racialized groups;Housing market trends in demand and supply	Evictions

Question 11. How open to change is your community to resolving housing issues?

A. Work to resolve housing issues is underway in our community.
B. Community efforts to resolve housing issues are fragmented.
C. There are many voices committed to resolving housing issues.
D. There is agreement on what needs to be done.
E. There is agreement on the nature of the housing issues in our community.
F. There is conversation around and interest in housing issues in our community

Organization	A	B	C	D	E	F	Comments (Question 11):
Priority Decision Data Inc.	Agree	Agree	Disagree	Disagree	Disagree	Agree	Housing policy discussions tend to be divided into two fairly distinct universes. Quite often there is advocacy without much dialogue on each side of the divide. The same or similar questions are frequently rehashed.
Focus Consulting/Carleton University	Disagree	Agree	Agree	Disagree	Agree	Agree	Hard question for me to answer as a pan-Canadian researcher
Inclusion Canada	Agree	Disagree	Agree	Agree	Agree	Agree	We are a national federation; not a community per say.
Happy City	Agree	Agree	Agree	Disagree	Agree	Agree	There is too much conversation and strategic plans compared to the amount of pragmatic approaches. there always seems to be a lack of permanent affordable housing even though this topic has been issue no. 1 in Vancouver for 20 years or more.
Factor 5 Group	Agree	Agree	Agree	Agree	Agree	Agree	Seen as a big issues locally (Creston) and in the Kootenays.
City of St. Albert	Agree		Agree	Disagree	Agree	Agree	Funding is a clear gap between desire and actions.
Parkbridge Lifestyle Communities	Disagree	Agree	Agree	Agree	Disagree	Agree	These are generalized across the various municipalities where we have our land lease communities.
SHS Consulting	Disagree	Agree	Agree	Agree	Agree	Agree	there is a lot of anxiety over Provincial direction to come shortly

RDH Building Science Inc	Agree	Agree	Agree	Disagree	Agree	Agree	I'm unclear on who you mean by "community". Do you mean the Canadian community (i.e. the geographic region we serve?)? That's what I've assumed for my answers.
Durham Family Resources and Support	Disagree	Disagree	Agree	Agree	Agree	Agree	there are parallel routes being run, but no common dialogue on vision
City of Coquitlam	Agree	Agree	Agree	Disagree	Agree	Agree	Existing single family neighborhood voices are more active than low-income renters. This results in one-sided conversations from NIMBY activists to keep "character" (exclusionary zoning) or welcome high density (cash out).
Eastern Ontario Leadership Council	Disagree	Agree	Agree	Disagree	Agree	Agree	Absence of current, granular data is a serious impediment to local decision-making. Mostly we have to operate on anecdotal information the accuracy of which is debatable. Plus the variability of even the most basic data is pronounced from one community to another, even if they are adjoining.
City of Calgary	Agree		Agree	Disagree		Agree	I was unsure about a the answers to a couple of the questions so I left them blank.
Social Planning Toronto	Agree	Disagree	Agree	Agree	Agree	Agree	What's fragmented is government response. It's not a community problem (mostly). It's a problem of political will.
Social Planning Toronto	Agree	Disagree	Agree	Agree	Agree	Agree	What's fragmented is government response. It's not a community problem (mostly). It's a problem of political will.
Social Planning and Research Council of Hamilton	Agree	Agree	Agree	Agree	Agree	Agree	Agreement on what needs to be done is not universal, but we do have community buy in on local housing plan.
Metro Vancouver	Agree	Disagree	Agree	Agree	Agree	Agree	Much action is underway but still challenging to make up for the backlog of years where funding was not available
Prairie Skies Integration Network	Disagree	Disagree	Agree	Disagree	Agree	Agree	Again, there is a great deal of drive and collaborative spirit to address the issues, but so few resources to empower us

CIty of Delta	Agree	Agree	Agree	Disagree	Disagree	Agree	Public opinion is split on how to (or even if we should) address housing issues.
City of Burlington	Agree	Agree	Agree	Disagree	Agree	Agree	City is working on a housing strategy.
Halton Region	Agree	Agree	Agree	Disagree	Disagree	Agree	Community efforts have been strengthened /less fragmented due to the implementation of the homelessness action table. There are many voices committed to resolving housing issues
County of Simcoe						Agree	Not sure of the answers to most of these
University of Ottawa	Agree	Agree	Agree	Disagree	Disagree	Agree	I am now talking about Ottawa. Great groups, terrible council, nascent coordination of advocacy
Supportive Housing of Waterloo	Disagree	Agree	Agree	Disagree	Disagree	Agree	There is an absence of leadership in this area, particularly from the Region
Town of Newmarket	Disagree	Agree	Agree	Agree	Agree	Agree	Fragmentation is relative to interest groups.
Northwestern Ontario Local Immigration Partnership	Disagree	Agree	Disagree	Disagree	Disagree	Agree	Our major challenges revolve around trying to find housing for refugee families- most landlords are used to renting to college and university students and want to charge by room. This does not work well when trying to house refugee families brought here by our government and on the government budget for one year's time during settlement.
City of Windsor	Agree	Agree	Agree	Disagree	Agree	Agree	Our community has development projects planned to provide more affordable housing options for residents.
City of Red Deer	Agree	Disagree	Agree	Disagree	Agree	Agree	There is some segregation between to operational sub-sections (Homelessness Supports & Affordable Housing)
City of Red Deer	Agree	Agree	Agree	Disagree	Agree	Agree	Definitely lots of conversations happening within the community about housing, however I think there is a lack of coordination between the community as a whole. There has definitely been an increase in collaboration

							over the past few years with the development of the latest housing & homelessness plan. Look forward to seeing collaboration between systems continue given the complex nature of homelessness and the broadband reach it has to different sectors/ organizations.
OMHQ	Agree	Agree	Agree	Disagree	Disagree	Agree	Nous avons une Table de concertation sur le logement social et communautaire qui a des objectifs liés aux énoncés ci haut.
Desjardins	Agree	Agree	Agree	Agree	Agree	Agree	nous travaillons beaucoup sur les formules innovantes d'habitation
CCCQSS	Disagree	Agree	Disagree	Disagree	Disagree	Agree	Comme je l'ai dit plus haut, la problématique principale que l'on rencontre, c'est l'absence de volonté politique de faire du logement social une priorité dans la résolution de la crise du logement. C'est le refus du fédéral de financer un programme HLM, comme avant 1994. C'est le sous-financement pour développer des projets de logements sociaux. C'est la rareté des terrains.
Ruche Vanier	Agree	Disagree	Disagree	Disagree	Disagree	Agree	Nous sommes au début de notre démarche pour améliorer les conditions de logement dans le quartier. Les partenaires locaux, qui ont des missions différentes de la nôtre mériteraient d'être mieux intégrer à la démarche. Nous travaillons de près avec les organismes locaux des quartiers avoisinants et les organismes de défenses de droits des locataires.
Regroupement des groupes de femmes de la région de la Capitale-Nationale		Disagree	Disagree	Disagree	Disagree	Agree	Je ne sais pas quels sont les travaux menés visant à résoudre les nejeux du logement actuellement
FROHMCQ - Fédération régionale des OSBL d'habitation Mauricie-Centre-du-Québec	Agree	Agree	Agree	Disagree	Disagree	Agree	Les débats sur le logement communautaire est dépendant de la politique. (au sens large)

Question 12. What techniques for presenting evidence work best for your community?

1. **Visuals such as photos and infographics**
2. **Hard facts that make a economic and social case for action**
3. **Critical statements, e.g. "everyone deserves a safe place to sleep"**
4. **Maps**
5. **Solutions from experts and examples that worked elsewhere**
6. **Personal stories from individuals and households**

A. Techniques we currently use / Les techniques que nous utilisons actuellement
B. Additional techniques in future / Les techniques additionnelles à l'avenir

Organization	1	2	3	4	5	6	Comments (Question 12):
Priority Decision Data Inc.	A	A		A	A	B	In general, we try to limit slogans to uses as titles or subtitles, or avoid them altogether.
Focus Consulting/Carleton University		A	A			A	not really applicable
McGill University	A;B	A;B	A	A;B	A;B	A;B	Too many critical statements, too little data, too little procedural knowledge and evidence of what works in various contexts
Inclusion Canada	A	A	A		A	A	Solutions, based on research and models that are working across Canada, combined with personal stories.
Happy City	A	A	B	B	A	A	Barriers and challenges to achieving housing solutions. Toolkits.
SHS Consulting	A	A	A	A	A	A	We find that personal stories (qualitative) must always be paired with facts that make the economic and social case, if we want to persuade a wide range of people.
City of Coquitlam	A	A	A	A	A	B	Individual stories from low-income neighbors may help with empathy.
Workforce Planning and Development Board (EMO)		A;B		B	A;B	A;B	Comments from employers
Town of Oakville	B	B	B	A	A	B	Some of these techniques are not used in relation to housing, specifically, but rather other projects when engaging with the community about community building. As a lower-tier municipality, we

Organization	1	2	3	4	5	6	Comments (Question 12):
							have typically supporting the role of Halton Region as the housing service provider.
Social Planning Toronto	A	A	A	A	A	A	All have a role
Social Planning Toronto	A	A	A	A	A	A	All have a role
Metro Vancouver	A;B	A	A	A	A;B	B	There are certain techniques that we use now, which we could benefit from using more in the future, such as more visuals/inforgraphics/user-friendly data, as well as "expert" solutions and case studies from other jurisdictions.
Prairie Skies Integration Network	B	B			B	B	I suspect the above would be the most powerful tools
Canadian Mental Health Association, Elgin-Middlesex	A	A	A	A	B	A	What works in other communities may not be the best fit/solution for our community
University of Ottawa	A	A;B	A	A;B	A;B	A	At the moment, it appears that the majority of councillors are in two warring factions. The majority are not making the right decisions. Staff are afraid of council.
Region of Durham	A	A	A	A	A	A	Need more resources for visuals and infographics
City of Red Deer	A	A	A	A	A	B	Maps to some degree are currently being used, however this could be expanded in the future. Personal stories are something that we have used in the past as well, but would like to continue this facet of story telling to communicate realities of the community.
Elizabeth Fry Society	A	A	A	A	A	A	AND international models, Canada's International and Domestic commitments made as well as our work at a provincial and municipal level
Ruche Vanier	B	A	A	B	A	A	+ Tracts + Accroches-portes + Réseaux sociaux + Téléphone
Regroupement des groupes de femmes de la région de la Capitale-Nationale		A;B	A			A;B	Il nous manque de connaissances et d'outils pour utiliser des supports visuels, des cartes ou des exemples et solutions tirés d'ailleiurs, mais cela nous intéresse.

Question 13. What local sources of data can your organization contribute?

A. We create our own housing data, surveys, and information / Nous générons nos propres données, sondages et documents d'informations concernant le logement.
B. We have lists of other local data, surveys and information / Nous disposons de listes rassemblant d'autres données, sondages et informations locales.
C. We have not considered contributing to local housing data / Nous n'avons pas envisagé de contribuer aux données locales sur le logement.
D. We do not have the capacity to contribute / Nous n'avons pas la capacité de contribuer.

Organization	What local sources of data can your organization contribute?	Comments (Question 13):
Priority Decision Data Inc.	A;B	We focus on ranking and comparing housing indicators in different urban centres and regions across Canada.
Focus Consulting/Carleton University	C	assemble data from official sources; don't self generate data
Ecobatiment	C;D	We work on a case by case basis and our work is not specific to housing but to buildings in general, including commercial and institutional
Union: Sustainable Development Co-operative	C	Interested! Can liaise with the Region and housing providers to pull together relevant data.
Inclusion Canada	A	We are not local/likely does not apply.
Ecobatiment	C;D	We work on a case by case basis and our work is not specific to housing but to buildings in general, including commercial and institutional
Happy City	C;D	At the moment our company is going through financial challenges due to Covid. At the moment, our capacity to contribute is limited since admin directions have indicated project leads to focus on projects that can increase the company's revenue.
Refocus Housing Strategies	A	ad hoc per project and geography
RDH Building Science Inc	C	I'm not sure what data would be shareable. Would need to discuss with colleagues.

Organization	What local sources of data can your organization contribute?	Comments (Question 13):
Red Cedar Cafe	C	We have not considered this but could provide real time data on numbers of unhoused in encampment that could be used to help tbe community monitor impact of homelessness initiatives that lead to housing
Waterloo Region Immigration Partnership	A	We survey immigrants in our community about a number of issues - housing is just one of those so the data is not in great depth.
Halifax Regional Municipality	B	Staff are better placed to answer.
Workforce Planning and Development Board (EMO)	B;D	Capacity continues to be an issue.
Eastern Ontario Leadership Council	A	We have some capacity to undertake region-wide data analysis but it is limited more by paucity of solid data than analytical capacity.
City of Toronto	A	We conducted webscrapes of asking rents in 2017 and 2018, but have been unable to continue the survey due to new legal restrictions on webscrapes.
Town of Oakville	A;B	The Town of Oakville is a lower-tier municipality within the Regional Municipality of Halton. Halton Region is the Municipal Housing Service Provider.
City of Calgary	C	We are limited in the amount/type of housing data that we can share due to confidentiality
County of Simcoe	A	Currently we use the data internally and talk about making the reports publicly available, although the data is collected and analyzed for very specific purposes.
Metro Vancouver	B	The region compiles housing data at the regional level with break downs for municipalities
Metro Vancouver	A;B	The only data that I'm aware of that we produce are estimates of population, households, and future housing demand. This is part of our regional growth strategy. These are presented at the municipal level.
Canadian Mental Health Association, Elgin-Middlesex	B	Present gathering of data is not always efficient and is not always the most reflective of our exact communities
City of Kingston	A	We have some and started discussing others
CIty of Delta	D	While the surveys involved in our Housing Action Plan generate data, they may not be statistically reliable. Otherwise, we rely on external data sources (census, BC Housing, etc.)

Organization	What local sources of data can your organization contribute?	Comments (Question 13):
City of Burlington	B	We provide building permit data to CMHC.
Halton Region	A;B	Surveys and analysis of community data, and obtaining housing data from community sources.
County of Simcoe	C	Other departments at the County of Simcoe might have something to contribute, Our department does not.
University of Ottawa	A	I am a researcher, very engaged at the national level, starting to get engaged at local level but it is a frustrating space at present.
Centretown Community Health Centre	A	We collect basic housing information from our clients, including highly vulnerable clients, and data completeness is improving over time
PEIANC	A	We are creating our own- pooling data from credible sources & info gathered from our own survey's.
Fraser Valley Regional District	A;B	Our member municipalities also have lists and have more resources
City of Windsor	C	I am not sure of the sources we would be able to contribute at this time.
Moose Jaw Multicultural Council	A;B	We collect data to maintain our data base and to be aware of any changes and challenges so that we are always progressing.
City of Red Deer	A	The data from my department would be related to housing of those experiencing homelessness. Data related to housing starts and types of buildings would be through another department.
City of Red Deer	A	Would depend on the data, our Housing Data Analyst would be a great resource for what's available.
OMHQ	A;B	Nous contribuons grandement aux données locales avec le Registre partagé pour le logement subventionné à Québec.
Comité Maison de chambres de Québec	D	Les données que nous avons sont incomplètes ou confidentielle. Il peut être très difficile de trouver des données précises ou complètes sur les maisons de chambres puisque plusieurs ne sont pas déclarées. Nous participons cependant souvent à des études et désirons continuer à le faire.

Organization	What local sources of data can your organization contribute?	Comments (Question 13):
Centre Mgr Marcoux	C	Ce n'est pas à proprement parlé notre mission
CIUSSS de la Capitale-Nationale	A;B	Depuis le recensement de 3006, t, nous produisons des portratis de défavorisation qui incluent des données sur le logement.
Unité de travail pour l'implantation de logement étudiant (UTILE)	A	Voir question 9
Regroupement des groupes de femmes de la région de la Capitale-Nationale	C;D	Je ne sais pas si nous pouvons contribuer.
Holland Community Housing Corporation	A	We do our own statistics/profile on McGreevy

ANNEXES

Annex 1 – CDP Solutions Lab Survey questionnaire (English version)

CDP Solutions Lab Survey Questionnaire

*Required

Canada Mortgage and Housing Corporation (CMHC) is funding the Community Data Program Solutions Lab.

This initiative will help municipalities and community sector organizations find the best way to measure and respond to local housing and housing-related issues through relevant data, visualization and reporting tools.

1. Organization/Agency (please fill in the blank): *

_____

1. 1.1. If your organization includes multiple departments, please name your department:

_____

2. 2. The scale of Geographic Region served: *

select type from drop down list and fill in name *Mark only one oval.*

- [ ] Canada
- [ ] Province
- [ ] Territory
- [ ] Health Region or Economic Region
- [ ] Municipality
- [ ] Multiple municipalities
- [ ] Indigenous organization
- [ ] Neighbourhood
- [ ] Other (Please specify below)

If Other, specify please:

3. The name of this Geographic Region is: *

e.g. City of Kingston, Region of Peel, Regina Qu'Appelle Health Region

4. Sector *

Select all that apply

Tick all that apply.

- [ ] Municipal government
- [ ] Local authority body (school, police, social services, housing, conservation, economic development, Local immigration Partnership)
- [ ] Provincial/Territorial government
- [ ] Housing corporation
- [ ] Federal government
- [ ] Indigenous organization
- [ ] Non-profit/voluntary sector
- [ ] Health sector
- [ ] Post-secondary institution/research institute
- [ ] Private sector industry association
- [ ] Private sector company

Other: [ ] _____

5. Are you currently involved in a different Canada Mortgage & Housing Corporation (CMHC) National Housing Strategy Solutions Lab? * *Mark only one oval.*

- ◯ Yes
- ◯ No
- ◯ Unsure

Community Data Program

Enabling communities across Canada to measure and track local well-being

This survey is intended for individuals working for organizations or departments of organizations with either a direct or indirect role in the housing field. Please respond to the questions below based on your role in your organization.

More than one person per organization is encouraged to fill out the survey.

How is your organization involved in resolving housing issues? *

Please check all that apply

Tick all that apply.

- [ ] Advocacy
- [ ] Policy
- [ ] Program or service delivery
- [ ] Building or construction of housing
- [ ] Housing is our main priority
- [ ] Housing is part of our mandate
- [ ] Housing is not part of our mandate, but is related to issues we address (such as poverty)
- [ ] Not involved in housing issues Other (please comment below)
- [ ]

Comments (Question 6):

---

7. Would you like to engage more in resolving housing issues in your community? *

Please select the answer that most applies.

Mark only one oval.

- We are comfortable with our current level of engagement
- We wish to engage more, but are limited by capacity and resources
- We plan to engage more in housing issues and still need to secure resources
- We plan to engage more in housing issues and we have secured resources
- Other (please comment below)

Comments (Question 7):

8. Do you have the following capacity and resources to address housing issues?

Please select whether you have enough of the following.

Mark only one oval per row.

	Not enough	Enough	More than enough	Not applicable
Dedicated staff time	◯	◯	◯	◯
Skills and training	◯	◯	◯	◯
Data and information	◯	◯	◯	◯
Budget	◯	◯	◯	◯
Passion and commitment	◯	◯	◯	◯

Comments (Question 8):

---

9. What are your sources of data relating to housing issues, if any? *

Please select all that apply.

Tick all that apply.

- [ ] Community Data Program
- [ ] Statistics Canada (apart from CDP)
- [ ] Canada Mortgage and Housing Corporation (apart from CDP)
- [ ] Provincial Government statistical sources of data and information
- [ ] Private sector housing data such as Environics Analytics or Altus Group Data Solutions
- [ ] Our own housing-related surveys and administrative data
- [ ] Other local organizations
- [ ] No need for housing data or information
- [ ] Other data and information (please comment below)

Comments (Question 9):

Réseau canadien de DÉC

Community Data Program

Enabling communities across Canada to measure and track local well-being

10. What are the housing topics about which you wish you had more data and information, especially at the neighbourhood level? *

Tick all that apply.

- [ ] Anything related to housing
- [ ] Fleeing Domestic Violence
- [ ] Seniors
- [ ] Indigenous peoples
- [ ] Homeless people
- [ ] People with disabilities
- [ ] Mental health/addiction
- [ ] Veterans
- [ ] Young adults
- [ ] Racialized groups
- [ ] Newcomers
- [ ] Housing market trends in demand and supply

Comments (Question 10):

Community Data Program

Enabling communities across Canada to measure and track local well-being

11. How open to change is your community to resolving housing issues?

Please indicate where you agree or disagree with the following statements.

Mark only one oval per row.

	Agree	Disagree
There is conversation around and interest in housing issues in our community	⬭	⬭
There is agreement on the nature of the housing issues in our community.	⬭	⬭
There is agreement on what needs to be done.	⬭	⬭
There are many voices committed to resolving housing issues.	⬭	⬭
Community efforts to resolve housing issues are fragmented.	⬭	⬭
Work to resolve housing issues is underway in our community.	⬭	⬭

Comments (Question 11):

Community Data Program

Enabling communities across Canada to measure and track local well-being

12. What techniques for presenting evidence work best for your community?

Please select all techniques you currently use in the first column. Then check the techniques you think would be effective in future in the second column.

Tick all that apply.

	Techniques we currently use:	Additional techniques in future:
Personal stories from individuals and households	☐	☐
Hard facts that make a economic and social case for action	☐	☐
Critical statements, e.g. “everyone deserves a safe place to sleep”	☐	☐
Visuals such as photos and infographics	☐	☐
Maps	☐	☐
Solutions from experts and examples that worked elsewhere	☐	☐

Comments (Question 12):

13. What local sources of data can your organization contribute? *

Tick all that apply.

- [ ] We create our own housing data, surveys, and information
- [ ] We have lists of other local data, surveys and information
- [ ] We have not considered contributing to local housing data
- [ ] We do not have the capacity to contribute

Comments (Question 13):

Community Data Program

Enabling communities across Canada to measure and track local well-being

14. The CDP team will be working on this project over the next two years. Are you interested in having us follow up with you on issues around local housing data? * *Mark only one oval.*

- Yes
- Unsure, based on other work priorities.
- Please check back in future
- No
