# Canadian Business Patterns

## *What is it?*

The Canadian Business Patterns dataset contains detailed information about Canada's business industry. It has data which reflects counts of business establishments by various criteria which include: employment size ranges; geography groupings including province/territory, census division, census subdivision, census metropolitan area and census agglomeration; and industry using the North American Industry Classification System as of December 1998. Before December 2004, the data was also presented using the Standard Industrial Classification .

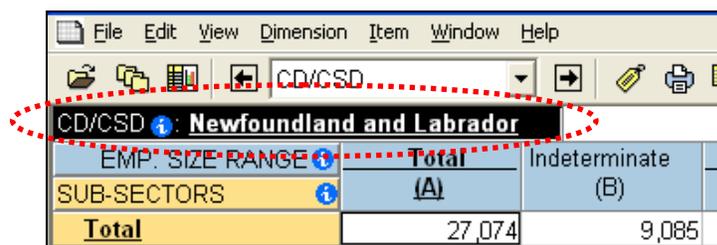

## *Does it contain Sault Ste. Marie specific data?*

This dataset does contain information for Sault Ste. Marie specifically as a Census Subdivision (CSD) as well as a Census Metropolitan Area (CMA).

Sault Ste. Marie Census Subdivision: 3557061  
Sault Ste. Marie Census Metropolitan Area: 590

The tables in this dataset contain information for all of Canada so it is quite a task to scroll through every entry to find local data. You can locate Sault Ste. Marie data quickly and easily by following these steps:

- (1) Open the table in Beyond 20/20 Professional Browser
- (2) Click the geographical heading so that it is highlighted.

The screenshot shows a software window titled 'Beyond 20/20 Professional Browser'. The menu bar includes 'File', 'Edit', 'View', 'Dimension', 'Item', 'Window', and 'Help'. Below the menu bar is a toolbar with icons for file operations and a dropdown menu currently set to 'CD/CSD'. The main content area displays a table with a header row 'CD/CSD : Newfoundland and Labrador' highlighted in black. Below this header, the table has columns for 'EMP. SIZE RANGE', 'Total', and 'Indeterminate'. The 'EMP. SIZE RANGE' column has a sub-header 'SUB-SECTORS' and a 'Total' row. The 'Total' row shows values of 27,074 and 9,085. A red dashed circle highlights the 'Newfoundland and Labrador' header.

CD/CSD : Newfoundland and Labrador	Total	Indeterminate
EMP. SIZE RANGE	(A)	(B)
SUB-SECTORS		
<b>Total</b>	27,074	9,085

- (3) Click the 'View' menu then 'Dimension'
- (4) This will bring up a full list of the geographies available to look at. The list will be in numerical order so you can scroll down to find Sault Ste. Marie based on the number given above for CSD or CMA.
- (5) Highlight Sault Ste. Marie in the list then click the small black 'x' in the top right corner to close the Dimension window.
- (6) On the main screen data for the area you highlighted should be displayed.

## **Family Data**

### ***What is it?***

The Small Area and Administrative Data (SAAD) which provides statistical data derived from administrative records. The databank on census families is one of these and is compiled from information obtained through annual personal income tax returns and is updated annually. There are now 18 tables in this data set. A guide has been provided with the data which explains how the data has changed over time due to occurrences such as changes in tax form definitions, practices for tracking those without income and increases in the number of people filing tax returns.

### ***Does it contain Sault Ste. Marie specific data?***

This data is tracked within Sault Ste. Marie and can be looked at through various Geographies. These include:

- Urban Forward Sortation Area - P6A, P6B, P6C
- Rural Route - P6A 5K6, P6A 5K7, P6A 5K8, P6A 6K4, P6A 6J8, P6A 5K9
- City pot - Sault Ste. Marie
- City total - Sault Ste. Marie
- Federal Electoral District - Sault Ste. Marie
- Census Agglomeration - Sault Ste. Marie

# **Survey of Household Spending**

## ***What is it?***

This is a dataset containing detailed information about household spending during the reference year (previous calendar year), also dwelling characteristics as well as household equipment. The data is based on a sample survey of more than 20,000 households across Canada. There are two key pieces of information that can be derived from this data; average annual household expenditure on a product/service and the percentage of households that actually purchased a product/service. This is beneficial for calculating a variety of consumer market statistics.

## ***Does it contain Sault Ste. Marie specific data?***

This dataset contains information only for major cities, provinces and Canada.

## **Uniform Crime Reporting**

### ***What is it?***

The Uniform Crime Reporting Survey (UCR) was designed to measure the incidence of crime in Canadian society and its characteristics. The Canadian Centre for Justice Statistics (CCJS), in co-operation with the policing community, collects police-reported crime statistics through the UCR survey. Information collected includes the number of criminal incidents, the clearance status of those incidents and persons-charged information. It produces a continuous historical record of crime and traffic statistics reported by every police agency in Canada since 1962.

### ***Does it contain Sault Ste. Marie specific data?***

The third table Crime\_All\_Incidents\_Police\_Force\_1997-2007 has data from the Sault Ste. Marie Municipal police force, the Sault Ste. Marie RCMP detachment and the Sault Ste. Marie OPP.
